Teacher Biography

RAY HAYS

Ray has over 20 years of experience in the field of early childhood education. He has worked with various age groups from toddlers to school age kids. This will be his 13th year as a teacher with Cosumnes CSD. In his spare time, he likes to spend time with his family. He also enjoys watching sports and coaching his son's basketball team.

Early childhood education is important because it lays the foundation for children to grow. It also gives children early critical thinking skills practice. Children learn best through play and it is important that children are given a chance to grow, learn, explore, and be creative. Ray strives to see each child as their individual self as he understands that every child learns at varying pace. He enriches children's communication, team work and socialization skills in a structured, fun environment.

As a parent and teacher, Ray looks forward to working together with guardians in making sure that each child's needs are being met. The goal for him as teacher is to help each child succeed in meeting their unique needs. He looks forward getting to know you and your child.
